### One voice interview session II

### MUKH BAND KAAM SURU

**DATE: 12<sup>TH</sup> NOVEMBER 2020**

With the days and nights colliding together due to the global pandemic, our daily life has suffered greatly and as a consequence we don't have a time to appreciate those who are working day and night to enrich our society from the background by working their mind and body on the field, fighting not only the disaster that is Corona infestation but also the virus and bacteria that is lurking in our society and environment.

Our NSS unit has integrated together a multi dimensional platform, "One Voice" where we plan to interview and learn about the journey of those unsung heroes of our society who are silently working for a better tomorrow. We believe that through these we will not only be inspired but it will also help us spread and build humanity in the minds of mass.

Our purpose is to interview these heroes of society enrichment and share their stories with the help of our virtual platform One Voice however, if one is unavailable to give the interview online, we also intend to have a meeting with them so that we can learn about the journey. We have been inspired by you

and would love to hear your journey. On the 12<sup>th</sup> of November 2020 the team of NSS unit conducted an interview with Mukh Bandh Kaam Suru at around 12 pm which was taken by our

NSS volunteers namely Surabhi Pakhrin and Navin Singhal. The main motive of this trust is to bring back the lost essence of Darjeeling they work in various fields like poverty, education, health, youth affairs etc. Rahul Pradhan who is the general secretary of Mukh Band Kaam Suru is recipient of all Heroes awards, he received the award on 7<sup>th</sup> of February 2020. Besides social service, his interest also resolves around quizzing and classical music. The reason he started his NGO was his friends they came to his home town Darjeeling and commented that his home town was filled with dirt. So he posted this on his Facebook page and he questioned the governor the area, the very next his post went viral and which was the reason and the main motive behind to start the NGO. On 11<sup>th</sup> of October 2018 three NGOS namely Namaste Foundation and Mukh bandh kaam suru address the media to highlight the funder.

The NGO workers have been contributing greatly so far and the interview ended on a cheerful note where both parties demonstrated that our society is still full of new branches and heroes who will not stop till they can bring the change of greener and cleaner India as well as world.

## CLEANLINESS DRIVE

Place- Mahananda River Siliguri

Date- 11<sup>th</sup> December 2020

On 11<sup>th</sup> December 2020 at around 3 pm, the NCC cadets of Salesian College Siliguri gathered to take part in cleanliness drive at Mahananda River near Champasari.

Under the guidance of LT. Risha Chettri (ANO Salesian College, Siliguri) around 21 cadets headed towards the destination where the cleanliness drive took place. The spot at first was in a miserable state where plastic bags, wrappers and unused clothings were carelessly thrown. Also there were glass bottles which would be very vulnerable to minor or major accidents as the place was in regular use by the localities. Despite, the weather cadets enthusiastically worked until the area was litter free to a considerable extent.

People residing near the river were asked to throw their waste in dustbins provided by the municipality corporation. They were told about the importance of keeping the river clean as it is not only beneficial for the present generation but also future generations to come.

Celebrating international youth day –  
Hosting a regional Webinar in collaboration with  
**Humane society international**

titled

**“Our Hope for Farm Animals on India’s 75<sup>th</sup> Independence Day”**

Privileged by the concomitant guidance from our Rector & Principal Fr. (Prof). George Thadathil and our NSS Program Officer Mr. Pinak Dey, **NSS Unit II Salesian College Siliguri Campus collaborated with Humane Society International/India** to successfully organize a webinar titled - **“Our hope for farm animals”** on the **12th of August, 2021**. **Mr Abhishek Talukdar** who is the *Campaign Coordinator for Farm Animals Protection department of HSI India* led the webinar as our resource person. The role of Humane Society International (HSI) around the globe is to promote the *human-animal bond, rescue and protect wildlife, promote animal-free testing and research, and confront cruelty to all animals in all its forms.*

The event began at 1:00 pm with 40+ participants hosted by Mr Navin Singhal (B.com Hons, 5<sup>th</sup> semester).

Fr (Prof.) George Thadathil (Rector & Principal) Salesian College Siliguri *led us into a moment of prayer* followed by his words of wisdom. The principal spoke about several individual issues around the globe related to the *catastrophic climate change, expansion of desert-area* and thereby connecting its cause to the concept of Avidya [ignorance], in humans [as expressed in the philosophic school of Vedānta]. He also reminded us of the famous dystopic novel, *George Orwell’s “Animal Farm”* which showed the brutality and anarchy humans deploy while they treat farm animals. Father Principal’s words were followed by a speech from NSS Program Officer Mr. Pinak Dey, (adding on to what was already told by the principal), he projected a melancholic dystopian reality approaching by the next century [due to climate change], caramelised in a vision that needs radical change- initiation by the youth to provide an optimistic future for our planet.

The event was then handed over to Mr Abhishek Talukdar by NSS Volunteer Miss Roshni Chettri, who introduced him.

The presentation from the resource person basically focused on the real scenario *of industrial animal agriculture being one of the worst offenders in terms of severity of suffering and number of animals affected*. More than 80 billion land animals are raised for food every year globally, and of those, the majority of the world's more than 7 billion egg laying hens and an estimated 75 million breeding cows spend most of their lives confined to cages and crates so small that they can barely move. *He also spoke about important step towards eliminating this intensive confinement is reducing the number of animals raised for food globally by changing consumer eating habits* **reducing the amount of meat, dairy, eggs and fish** thereby- increasing *plant-based alternatives*. The Q&A session led to many inquiries both from students as well as participants. Towards the end of the presentation, Mr Talukdar emphasized on the nutritional vitality and plant-based alternatives available, to make a change.

Mr Talukdar, made it clear that **HSI does not enforce a vegan diet**, but trying to *reduce the variety/number of animal-based nutrition was the take away for the participants*. He emphasized that all type of food intake was personal choice which are conditioned into our life through our society and culture [there is no fault in a non-vegetarian diet]. The solution to sustainable development as mentioned, was to reduce the number of animal-based meals per week, per day and so on.

Alternatives such as almond milk, PU leather were advocated in place of animal milk and genuine leather.

The vote of thanks was given by Akash Bansal (B. Com Hons, 5<sup>th</sup> semester). Participants were finally asked to fill the feedback form and the webinar ended at around 2:30 p.m.

**Date – 27/10/21**

**Venue- Industrial Sector I**

Under the guidance of Mr. Pinak Dey(Program Officer), National Service Scheme Unit II of Salesian College Siliguri successfully completed their first industrial visit for session 2021-2022 on 27th October, 2021. The area of visit was Industrial Sector-1, near Sachitra Hotel Siliguri. The main motive of the survey was to understand the mechanical as well as worker related subject of the industries through closer view.

All volunteers(24) gathered in the Killian Hall at 12:10 pm and were led into a short prayer by Fr. Jagjeevan Tirkey. All volunteers were briefed about the event and were asked to maintain decorum while in

the industrial area by the Program Officer and Senior Volunteers.

At 12:30pm volunteers left the college campus and headed towards the sector. Two modes of transportation was used i.e., private and

public. We reached the area at 1pm and started our survey. We covered four industries of that sector namely,

- 1) Hypro Soyabean Industry
- 2) Sun Prints
- 3) Khusboo Plastic Industry
- 4) Sarkar Tiles Industry

The first industry we visited was Hypro Soyabean Industry. It was established in the year 1986 by Mr. Joginder Kejriwal and is currently run by Mr. Rahul Kejriwal. There are total of 6-7 workers who are paid on the basis of their work efficiency. The raw material(soya grits) are brought from Madhya Pradesh, Rajasthan and Maharashtra. The waste generated from the factory is used for the production of cattle feed. All the workers have been vaccinated and are kept in a

safe working environment.

The second industry that we visited was Sun Prints. The printing press has been running for 15 years under Mr R.K Agarwal(founder) and Mr. Arnav Agarwal. The factory produces posters, billboards, banners, vinyl posters, magazines etc. Various machines are used for production and four primary colours yellow, red, black and blue from which all other colours are extracted through the process of mixing.

There are total 15 workers who are paid 10000-15000 approximately. It is the first production house to print Covid posters in India. The factory was filled with a kind of pungent smell which was said to be a industrial chemical used in inks. The owner claimed the smell of

having no toxic effect.

Thirdly, we visited Khusboo Plastic Industry that produces zip lock plastic pouches. The raw materials used for production are small white grains known as LD and LLDPE which is mixed with other colours and plastics are produced. There are total 8-10 workers

working on different areas i.e., forming, printing and cutting.

After we completed our 3<sup>rd</sup> industry, we had a 15 minutes break for refreshments. Then we moved towards the last factory known as Sarkar Tiles Industry. The raw materials used are simply sand and stone which goes under a mixer machine that produces a thick mixture. The mixture is then put in silicone moulds to give the shape and is dried for 3-4 days. A chemical is mixed with the mixture which in turn produces coloured tiles. The tiles are strong and durable as it is double layered.

After the completion of all four industries all volunteers gathered and shared their personal experiences for the day and were dispersed at 3:20 pm. It was a one time experience for the volunteers and a lot of knowledgeable facts were taken home from the industrial visit.

# NCC Day

---

The **National Cadet Corps (NCC)** is the youth wing of the Indian Armed Forces with its headquarters in New Delhi, India. It is open to school and college students on voluntary basis as a Tri-Services Organisation, comprising the Army the Navy and the Air Wing, engaged in developing the youth of the country into disciplined and patriotic citizens.

NCC day is celebrated every year on the **4th Sunday in November**. NCC day is observed throughout the country. The raising day is being celebrated all over the country with cadets participating in marches, blood donation camps and social-development programs. This year the 73rd raising day of NCC was celebrated in Suryasen Mahavidyalaya, Siliguri.

The event was attended by all institutions that falls under 16 Bengal Battalion along with their respective Associate NCC Officers. A dignified silence enveloped the stands as the spectators were literally overawed by the gracious presence of Commanding Officer Balraj Gurung, SM. It started with hoisting the National Flag and the NCC Flag by the CO. The cadets offered Guard of Honour to our national flag and the national anthem was sung by all. The first program was Contingent Drill Display competition in which the respective colleges would abide by the rules and compete with one another. The hallmark of drill display was the bristling undercurrents of power, unity and discipline. The team spirit of all the institutions were remarkable but the winner has to be one. Naxalbari College took credible shots with the victory trophy followed by Suryasen Mahavidyalaya as the 1st Runners Up in the Drill Competition.

Cultural events play a major role in NCC. The opening ceremony kicked off with its characteristic fanfare which was performed by the host college. After the graceful cultural performances, the results were announced for the same.

Salesian College (Siliguri Campus) bagged the winners trophy for a duet dance performance, followed by Naxalbari College as the 1st Runners Up. The victory podium throbbbed with cheers as the CO gave away the prizes. The event drew to a close with the National Anthem.

were treated in a more humane way, however they are isolated and treated against their will. Whereas in Renaissance period, the mentally ill were only treated as 'different'. What would be your take in this?

**George Thadathil** 4 mins  
A very comprehensive approach to the topic and well delivered with much clarity for the students to follow. My question would be: if we declare to ourselves that Covid-19 is something like a fever, flu, viral fever, typhoid, but we recover (unless we are already chronically ill or a nonagenarian -though we have had a nonagerian who recovered too) would there be stigma attached to the illness? Could positive self talk, in other words, help prevent stigma?

The programme was inaugurated by VP, Dean, Father and HOD by watering the plant to mark the importance of water and conservation which was followed by presentations of Ayush Raj Subba and Lachen Tamang (1st semester, Sociology students).

After the programme got over, the rally started at 11 from the college gate to 8 Miles in which the students of Sociology Department participated enthusiastically spreading the awareness of Saving water and its importance. The department made the neighboring areas aware about the significance of water and the ways to conserved for the present and future generation through this rally and distribution of pamphlets. More than 20 shops were given pamphlets and stickers of "Save Water and Save Life" were distributed. The Students of the department interacting with the people and the shopkeepers shared their experience of eater crisis in the area and how they are managing their day to day needs.

However, the aim of the rally was fulfilled and turned out to be a huge success for raising awareness of the water crisis and a core focus of the event was to support the Sustainable Development Goal. You never know the worth of water until the well runs dry. Don't flush our planet's most valuable resource.

Conserve Water, Conserve Life!

### A Report

A college level webinar on 'Curbing the Menace of Ragging: A Sensitization Programme' was held on 29 September 2020 organized by Internal Quality Assurance Cell & Anti Ragging Cell, Salesian College Sonada in collaboration with the departments of English, Education and Mass Communication. The first semester students and the faculty logged in 5 minutes before the scheduled time. The webinar began at 10.15 am with a few introductory words of Miss Sradha Pradhan, member of the Anti-Ragging Cell and Campus Co-ordinator, Salesian College Sonada. She introduced the members of the Anti Ragging Cell, SCS and the objectives behind the establishment of the cell. Then she invited Dr. Terence Mukhia, the Co-ordinator of the Anti Ragging Cell, SCS to present his sensitization talk (power point presentation) titled as 'Curbing the Menace of Ragging'.

Dr. Mukhia presented his talk under seven points: Introductory Words on Ragging, Verdict of the Supreme Court, UGC Notification F. 1-21 (March 2012), What Constitutes Ragging, Administrative Action for Ragging, Online Anti Ragging Undertakings, and Important Contact Details. He explained in detail the procedure to fill up online affidavits by the students. The students were asked to submit a print copy of the affidavits as soon as possible to their HoDs, who in turn will hand over the same to the Anti Ragging Committee (SCS).

Dr. Mukhia also explained in detail the modus operandi of the college in case a distress call is received or if a complaint is lodged. He requested the students to take note of the helpline numbers of the college and UGC. He concluded the talk by saying, "Ragging is a crime, say NO to it."

Miss Shruti Chettri, another member of the Anti-Ragging Committee and faculty from the Department of Mass Communication, gave her concluding remarks on the sensitization programme. She emphatically concluded that ragging in any form, including cyber bullying, should not be tolerated and all of us needed to work together as conscious faculty and students to curb the menace of ragging.

Minuted by,

  
Dr. Terence Mukhia

### **WEBINAR ON MENTAL HEALTH AND COPING WITH COVID -19**

The National Service Scheme (NSS) Unit of Salesian College Sonada under the guidance and supervision of HOD of Sociology and NSS Programme Officer Mr. Samip Sinchuri organised a webinar to mark World Earth Day, 22 April 2021.

The guest presenter of the webinar Dr. Bhawana Khati from Salesian College Siliguri Geography Department discussed this year's Earth Day theme: "Restore the Earth".

Dr. Khati emphasized the preservation of electricity and other natural resources giving participants practical tips on how one could successfully conserve more power while seeking other resources of renewable and clean energy.

World Earth Day was initiated by, Senator Gaylord Nelson of Wisconsin. He believed that an issue as important as our environment was not addressed in politics or by the media. Hence he created the first "Earth Day, on April 22, 1970." An estimated 20 million people nationwide attended festivities that day.

# A Report on: World Environment Day 2021

World Environment Day was celebrated on 5th June by the NSS Volunteers under the guidance of NSS Nodal Programme Officer Mr. Samip Sinchuri. The main motive of the celebration was to spread awareness about the need to protect the environment and the ways to do it.

With many of us staying indoors, World Environment Day is a great day to start having an environment-related with our kindred and teach them about the preservation of natural resources. All the NSS Volunteers send the pictures and videos of them doing the fun activities in their respective gardens by planting saplings. Moreover, the event was really enjoyable.

At 3:30 pm NSS Volunteer Simon Dorjee Dukpa conducted the virtual meeting via Google Meet with a brief welcoming speech and introduced about this event where he welcomed all NSS volunteers along with Nodal officer. It was sort of poem recitation about the event. The event was short and sweet. It was followed by the poem recitation by two volunteer's i.e Shristi Gazmer and Eric Gomes which was really amusing and fruitful. After that we had a short video clip made by two NSS volunteers Yachana Gurung and Shristi Gazmer about tree plantation and its benefit as well as general awareness.

The event was concluded by final speech by our NSS Nodal Programme officer Mr. Samip Sinchuri through his encouraging words towards volunteers to do more services to the community.

Eventually, the meeting was ended by the NSS song.

## Career in Darjeeling Tea Industry

The Webinar on career in Darjeeling Tea industry which was organised by B.VOC Department on 20<sup>th</sup> September 2021 and the introduction speech was given by Maam Tshering Sherpa followed by Maam Kriti BK who spoke about the achievements of our guest Sir J.P. Gurung. Rector Father Tommy & Father Bursar also joined us in the seminar. The resource person for the webinar was Sir J.P. Gurung. He spoke about how the tea was first planted in Darjeeling an experiment carried out by Dr.Camp Bell who was the superintendent of Darjeeling at the period 1866 and Dr. Camp Bell brought the tea seeds from china and planted it in Alubari in Darjeeling. The experiment was successful and slowly Dr. Camp Bell expanded the plantation around Darjeeling. As we all can see the outcome of it hence the Darjeeling is famous worldwide because of its Tea today.

Sir J.P.Gurung spoke about the good scope and career which is in Tea Industry and he himself was a General Manager in Darjeeling and there were 6-7 Tea Gardens which was under him and was telling us the experience he had during his working days, how one must have or learn the skills of man management as we have to deal with various sort of peoples who are of different backgrounds and the workers who are illiterate and only few are little literate and hence handling them understanding them and working with them is a pretty tough job.

He also spoke about the various courses which we could do after the graduation like Tea Tasting, Assistant Manager, Tea Garden Supervisors, Factory coordinators, Logistics and the course duration for all this posts were from minimum of 3 months to 12 months maximum after graduation. There are many tea gardens in Darjeeling which has recently started Tea Tourism and the name of some of the Gardens are Goomte Tea Garden, Makaibari Tea Garden, Balasun Tea Garden, Marebung Tea Garden, Tukvar Tea Garden. And at the last we had questions and answers round regarding Tea Industry. I had asked a question regarding the lands where they grow tea and who owns it actually

Sir answered that the lands are given in lease by the Government and the time period is for 30 years and if the tea company wants to renew it they can do it after every 30 years of time. The session was really informative and got to learn so many new things regarding Tea Industry and was ended at 2:30 pm.

The Vote of thanks was given by HOD of B.VOC Sir Dharendra Newar.

After the introduction, Dr Patankar began his lecture by dedicating it to his life companion Prof. Gail Omvedt. He thanked the organizers for holding a memorial to honor her and her work.

Dr. Pathankar started his lecture by pointing out that “community, diversity and egalitarianism in India” were present in there in ancient India.

Matrilineal clans which were called gana-sangas or Matrilineal gana-sangas, were present around Indus valley civilization and these systems functioned according to the ideas of community, diversity and egalitarianism where we can see that there was no exploitation of any kind. These gana-sangas though were matrilineal in nature they were not matriarchal, they provided a field for the growth of an egalitarian society, and there was an absence of contradictions within the community which brought about a feeling of harmony. If there had been a presence of matriarchy then a quasi-state system would have been produced, which would have led to the disintegration of the totality of the community. In India we have the history of matrilineal gana-sangas that were prevalent in the north-east of India and to some extent in Kerala. As there was absence of privatization of property in these matrilineal societies, there arose no cases of enmity between the people. The people lived in complete harmony with his surrounding environment. As these societies were grounded on decentralization of power, there was absence of hierarchy between man and women. There was no question of exploitation regarding gender, class and caste. These matrilineal society gave a classic example of a society based on community, egalitarianism and diversity.

As years went by these matrilineal gana-sangas slowly got transformed into patriarchal gana-sangas. Dr. Pathankar pointed out here that we could still find egalitarianism in these patriarchal gana-sangas, as the concept of privatization had not entered the society. The change that took place between the relationship of man and women and the absence of egalitarianism within the family slowly started to affect the egalitarianism of the gana-sanga. Women is an essential part of the community and when there was exploitation of one part of the community by the other, the egalitarianism cease to exist in the community. So, when the gana-sanga changed from matrilineal to patriarchy, the spirit of egalitarianism also got eroded.

Talking about diversity, he showed that there was diversity in both matrilineal and patriarchal ganasanga. This diversity was neither hierarchical nor exploitative. The nature of this diversity depended on the qualities of a person and his ability and skills. So, this kind of diversity of the cultures and the diversity of the skills was there but without hierarchy. However, these aspects of the patriarchal gana-sangas started getting destroyed parallelly south of the Ganges and north, later on in the southern part of India some 600-700 years after the Sangam period. In south India we can see that these

egalitarian community continued much longer than in the north and remained in the eastern part for a longer time than in the south.

With the coming of kingship there was deterioration of the patriarchal gana-sangas. Buddha who was also living in the time of patriarchal gana-sangas tried to create an egalitarian community through his Buddhist sangas because it was absent in the society of that time. Buddha mainly tried to create an egalitarian community that was based on harmony and equality. He took many principles from the matrilineal and patriarchal gana-sangas. Dr. Pathankar pointed out that women were given entry into the Sanga when they came to Buddha and questioned him about the lack of women's participation in a sanga which was egalitarian in nature. From the verses of Therigatha, we know that there was an involvement of women equally along with the men in spiritual attainment and emerging new sangas kept the elements of community, diversity and egalitarianism. Though the existing society during the period had lost its egalitarian nature, the Buddhist and Jain sangas therefore existed as islands which upheld the ideas of egalitarian diversity and community. After the sangas, we can only find some traces of these community in the tribal society in the mountainous regions, who rejected to join the society which has lost its egalitarian diversity and their sense of community cohesion. It can be seen that with the coming of globalization, the community systems held by the tribal people; the Adivasis as well as the eastern hill tribes has been affected. These recent changes have now brought us to a society that has lost its sense of community and egalitarian diversity.

Omvedt when she wrote her *Buddhism in India*, she was the first person to point out that for a thousand years from 600 BC to 600 AD there was an absence of caste system, there may have been existing forms of caste system which however were not discriminatory. It was those very thousand years that prevented caste system from getting established in India, but once the Buddhist monks were killed, the caste system started growing rapidly. One can take the example of Buddha's peaceful intervention into the dasa-shudra slavery which was existing in those days, which led to the abolition of slavery. Here, Buddha can be seen as a reformist who showed the possibility of bringing into practice a society which is based on egalitarian community, without the use of violence.

Through this observation we come towards a question about the needed reestablishment of an egalitarian community that values diversity and harmony among its members. This possibility of establishing such a community was Prof. Gail Omvedt's dream, as stated by Dr. Pathankar. This "dream" towards which Prof. Omvedt worked throughout her whole life was also the dream that was held by Buddha, Babasaheb Ambedkar, Phule and the saint poets like Kabir. Dr. Pathankar lucidly explained how Prof. Omvedt through her analysis has put forward the idea that theorists like Ambedkar and Phule

were also trying to reach an alternative society which is based on egalitarian ideals which protects the idea of the freedom of diversity.

Gail Omvedt's book "Seeking Begumpura", which is based on Saint Ravidas's poem; who imagined of an egalitarian society with diversity, which was also based on the idea of community cohesion. Prof. Omvedt wanted to show that "Begumpura" the city or country without "gum" or "dukkha" (sorrow) is possible even today. Through the analysis of Buddha's intervention in the dasa-shudra slavery we can see that this can only be possible with a unanimous decision of all people who have decided to change this society. This is a question of changing the exploitative system and is not a suggestion of a fight between one majority section and a minority. Dr. Pathankar clearly points out in his words that "it is a question of liberating everyone from the clutches of the existing systems and making everybody more humane." This was the dream which was brought forward by Buddha, saint poets and Ambedkar. This was also the view brought forward strongly by Gail in her book "Seeking Begumpura". The real homage we can give to Gail Omvedt is by seeking Begumpura and reinstating these three aspects of community, diversity and egalitarianism into the creation of a more humane society.

The lecture was followed by an interactive session of questionnaire which was very informative. The webinar helped the students and the faculty the know more about the works of Prof. Gail. Omvedt and it made conscious of our responsibility to the establishment of the egalitarian community with diversity.

The session ended with a very thoughtful vote of thanks from Mr Samip Sinchuri (HoD) Department of Sociology.

(ENGLISH DEPARTMENT)

On 17-18th December 2021, the sport management of the college had organized a two days of Annual sport day. On 17th December, there was volleyball tournament. The tournament began with an opening prayer by Fr. Tomy Augustine, the rector of the college. The event was inaugurated by Bro. Joseph Augustine, the vice-principle of the college. There were three teams for girl's volleyball matches: In the final B.com+ B.C.A department by defeating English department became the champion. While for boy's volleyball tournament eight teams participated: political science department became the champion by defeating English department.

On 18th December, there was basketball tournament. There was only one match for and the match was between Sociology+political science vs B.com+ B.voc girls. the winner of this match was sociology+ political science department. However, there were eight teams for boys. The champion of this year is English department and the runners up is sociology department.

It was a wonderful and competitive event. The noise of the audience and the participant and the presence of faculty members in the courts made the events more excellent and meaningful.

We are grateful to Rakesh Subba, our sport teacher, and his team for organizing such a great event.

Also, it teaches punctuality, discipline and team works, keeping this in mind sport committee of Salesian College, Sonada organized Inter Department Cricket Match on 13<sup>th</sup> and 15<sup>th</sup> December 2021. 8 Participated teams were - Political Science, B.com/History, B.voc, Sociology, BCA, English, Bsw/Mass.communication and Faculty team. The Salesian college stadium was surrounded by the students of all department to cheer respective department. A bonus that pumped more fun into the games was the participation of the faculty along with the students.

The sunny day trailed the students battling it out on the ground to win the Inter Department cricket match tournament. The event started at 9.30 am after which 6 games followed. An inaugural match of [group A] held between the Political Science and B.com/History – a match-up in which B.com/History ultimately prevailed. This was followed by a match-up between the B. Voc and Sociology – Sociology emerged as the victor. Moving to [group B] of match-ups, the faculty team as victors over the English, BCA defeated the Department of Mass Communication. In the semi-final round of match-ups, the Sociology emerged victorious over the B.com/History. Similarly, the Faculty team defeated BCA in a match filled with quality that sometimes seemed ethereal. After all the high quality and intense match-ups.

The final of the tournament was held on the 15<sup>th</sup> of December 2021 around 2pm between two teams. That had been the best and most consistent through the tournament – Faculty team against Sociology. The faculty team emerged as the winners of the tournament with Sociology as runners-up in a matchup that was defined by immense highs and awe-inspiring moments that only sports can achieve. The tournament was a huge success with a great crowd turnout. All the participants in the tournament were great exponents of the best qualities of sportsmen and sportswomen, thus fulfilling the main objective of the tournament – to encourage in students the desire to participate and improve, the perennial

struggle of life; a struggle in which this tournament definitely played a huge supporting role.

Parag Verma

“We cannot always build the future for our youth, but we can build our youth for the future.” – Franklin D. Roosevelt

Yuva is one of the most active focuses within the Young Indians (Yi) association by which Yi members engage students from across the country in various initiatives that students conceptualize, plan and execute. The objective of this initiative is to create a platform for building Youth leadership with futuristic thought process and engage them in nation building to develop responsible youth for the future.

Yi- Yuva has been in association with Salesian College since 2017. This year the college management decided to extend the Yuva endeavors to the Humanities students along with the Commerce and Management students. Thus, on November 6, Yuva-Salesian organized its orientation session for the academic session 2020-21, on Google Meet, at 11 am. The session was presided over by Mr. Anuj Saha, Chair, Yi - Siliguri, Mr. Lekhram Nyoliwala, Co-Chair, Yi - Siliguri, and Mr. Jayesh Sinhal, Chair, Yuva - Siliguri. The speakers conveyed the objective statement of Yuva and helped the students to realize the various benefits which they shall derive out of this membership. The students were given a detailed insight of Yuva and its activities. The session also recorded the presence of Mr. Piyush Garg who spoke about Masoom which is one of the most esteemed initiative of Yi. The attendees were also told about the upcoming event, Yi Masoom Summit 2020, a forum for youth to engage and share ideas and recommendations to combat and prevent child sexual abuse.
